Heating/Ventilation/Cooling Dealers

Includes category intelligence for contractors and resellers of heaters, furnaces, air conditioners, heat pumps and ventilation systems, and geothermal heating systems (HVAC)

Industry Background

Primary NAICS Code: *238220*
Plumbing, Heating, and Air-Conditioning Contractors

Primary SIC Code: *1711*
Plumbing, Heating, and Air-Conditioning (except environmental controls installation; and septic tank, cesspool, and dry well construction)

Industry Intel

These businesses sell and install new heating and cooling systems for the residential and commercial markets. During new construction and renovation projects, these contractors may also install new piping, ductwork and sheet metal for heating/cooling/ventilation systems. In addition, these dealers may sell service contracts to homeowners. Because of the increased sophistication of heating and cooling units, including digital parts, these contractors typically have some technical school education, a two-year college degree and/or certification. Some concentrate on specific niches such as ductless systems, high efficiency heat pumps, indoor air quality, or data center cooling, often partnering closely with OEMs that specialize in those areas. Dealers must also comply with building codes, energy efficiency standards, refrigerant rules, and licensing requirements. Federal and state regulations on efficiency and refrigerants directly change what products dealers can sell and what training they need.

In the United States, HVAC is now a near universal service: about 90% of homes have some form of HVAC system, and the installed base is very large and aging, which shapes demand for dealers.

Growth for dealers in the United States is supported by several factors that go beyond simple building growth: replacement needs due to aging equipment, adoption of more efficient and connected systems, regulatory shifts that require new equipment types, and increasingly, targeted federal and state incentives for high efficiency heating and cooling. These drivers tend to support steady, multi-year growth rather than rapid spikes.

Specifically, there are approximately 118,400 HVAC contracting businesses in the United States, reporting revenue of $133.7 billion.

More Category Info

WARRANTIES

Of contractors offering warranties:

- 98% offer them on residential unitary systems
- 84% offer them on ductless systems
- 38% offer them on commercial unitary systems

The most common warranty length is 10 years. 55% of contractors bundle warranties into the total job cost, and bundled warranties generate about a 30% margin. About 45% of contractors sell warranties as separate add-ons, which generate about a 24% margin.
[Source: "Survey Reveals Strategies to Boost HVAC Close Rates by Double Digits." ACHR News, 16 Feb. 2026. Web. 19 May 2026.]

FINANCING

Financing has become a major sales driver for HVAC contractors. While 68% of contractors now offer financing — including 79% of residential contractors — only 37% present it on every job. Contractors that offer financing see significantly higher close rates (49% versus 38%), and those that consistently discuss financing generate more financed sales and sell fewer base-model systems. One contractor reported close rates rising from 77% to 83% after implementing financing options.

Know the Opportunities

Limited-Time Opportunities+Shareables

Daikin HVAC Dealers Can Promote up to $1,000 Instant Rebates on HVAC Systems

You can maximize sales from/for your local Daikin Comfort (HVAC) contractors and dealers by reminding them to promote seasonal instant rebates on Daikin FIT systems. Your Daikin dealers may be able to use accrual funds earned through the Daikin Comfort Pro Accrual Program (DCP) provided through their local distributor to offset advertising costs. **Effective through 12/31/2026.**

Trane Dealers Can Continue to Drive Sales With Special Financing Offers

You can maximize sales from/for your local Trane dealers by reminding them to continue to advertise the manufacturer's special financing offers on qualifying equipment. Your Trane dealers may qualify to have 50%-70% of their advertising costs reimbursed through Trane's co-op advertising program and pricing tiers. **Effective through 12/31/2026.**

Bryant HVAC Dealers Can Drive Sales With Consumer Financing Offers Preseason Checkups

You can maximize sales from/for your local Bryant heating and cooling dealers by reminding them to advertise the manufacturer's fall consumer financing promotion, as well as preseason checkups. Your Bryant HVAC dealers may be eligible to have a portion of their advertising costs reimbursed through Bryant's co-op advertising program and their local distributor. **Effective through 11/20/2026.**

AprilAire Dealers Can Drive Seasonal Sales With "Healthy Air" Campaign, New Filters

You can maximize sales from/for your local AprilAire dealers by reminding them to advertise the manufacturer's fall "Healthy Air" campaign, as well as new advanced filtration options. Your AprilAire partners may be eligible to have up to 60% of their advertising costs reimbursed through AprilAire's co-op advertising program. **Effective through 11/30/2026.**

Lennox Dealers Can Drive Seasonal Installations With Fall Promotion

You can maximize sales from/for your local Lennox dealers by reminding them to advertise their participation in the manufacturer's fall financing and rebate promotion. Your Lennox dealers may be eligible to have up to 60% of their advertising costs reimbursed through the Lennox Industries' co-op advertising program. **Effective 9/14/2026 through 12/4/2026.**

Rheem Dealers Can Advertise New Endeavor Line

You can maximize sales from/for your local Rheem heating and cooling dealers by reminding them to advertise the new Endeavor line, the brand's newest innovation in heat pumps. Your Rheem dealers may be eligible to have up to 80% of their advertising costs reimbursed through Rheem's co-op advertising program and their local distributor. **Effective through 12/31/2026.**

Carrier HVAC Dealers Can Increase Installations With "Cool Cash" Promotion

You can maximize sales from/for your local Carrier heating and cooling dealers by reminding them to advertise the manufacturer's fall "Cool Cash" promotion. Your Carrier dealers may be eligible to have up to 50% of their advertising costs reimbursed through Carrier's co-op advertising program and their local distributor. **Effective through 11/20/2026.**

SHAREABLE INSIGHTS

Are Employers Overconfident? Workforce Challenges Loom

> Operational needs, rather than pure optimism, are motivating companies to hire, with 53% citing increased volumes of work as the reason for headcount growth. The focus on filling newly created positions and employee turnover reflects strategic workforce management amidst a competitive labor market.

Peak Interest Months

Graph displays the trend line of search volume for this industry over the last 12 months. Source: DataforSEO November 02, 2026

Peak Sales Months/Seasons

Calendar Month	% of Annual Sales
January	6.9%
February	6.6%
March	8.2%
April	9.2%
May	9.5%

Calendar Month	% of Annual Sales
June	9.1%
July	9.1%
August	8.5%
September	8.4%
October	8.8%
November	7.9%
December	7.8%

HVAC demand peaks in summer, with July generating an estimated 13%-15% of annual business as extreme heat drives service calls and extended wait times. August follows closely at 11%-13%, while June accounts for roughly 10%-12% as the cooling season ramps up nationwide. In 2025, sales were highest during April, May, June, and July for building materials and supplies dealers.

The demand for heating services peaks during the winter months, typically from December to February. This period is marked by colder temperatures, leading to increased demand for furnace repairs and maintenance.

Contractors are still heavily phone-driven, but speed-to-lead is becoming a major competitive edge. Most first contacts (60%) still come in by phone, yet only about half (52%) respond to new leads within an hour, leaving room for competitors to win work simply by being faster.

Meanwhile, digital booking is still limited at just 13%, showing online systems haven’t yet replaced traditional call-based intake. Overall, response time—not just lead source—is increasingly what determines who wins the job.

CONSUMER MEDIA USE

73% of homeowners said they select the same HVAC contractor they have used in the past, a 44% increase from the prior year when this figure was 29%. In addition, 67% of homeowners reported finding their HVAC contractor through word of mouth or recommendations, including social media, down slightly from 71% in 2023. The survey also found alignment with contractor behavior, as 78% of contractors said they primarily rely on word-of-mouth advertising, up 35% year over year, and 53% reported using social media for marketing.
[Source: "Survey Shows How Homeowners Choose Their HVAC Contractor." ACHRnews.com, 20 Aug. 2024. Web. 19 May 2026.]

85% of home services companies outsource at least some aspect of their marketing. Among those outsourcing marketing, 78% use two or more external vendors.

75% of businesses invest in digital advertising, making it the industry’s most widely used marketing channel. Meanwhile, only 37% invest in SEO, trailing traditional channels like print advertising (42%) and out-of-home advertising (41%). The report also found that customer conversion preferences vary by industry.

Overall, 44% of businesses said phone numbers are their top-performing call-to-action, followed by direct messages at 32% and online scheduling at 31%. Direct messaging performed especially well for plumbing companies at 43%, while online scheduling was strongest among HVAC companies at 37%. SMS and text-tools were the top-performing CTA for 13% of businesses overall and 20% of lawn care companies.

55% of home service leaders said they struggle to differentiate themselves from competitors, 80% said they are unsure how to appear in AI-driven search results, 67% struggle to consistently collect reviews, 66% said after-hours customer service is their top challenge, 67% cannot directly connect marketing spend to revenue, and 78% use two or more marketing vendors.
[Source: "2026 State of Home Services Marketing Report." scorpion.co, n.d. Feb. 2026. Web. 19 May 2026.]

Co-op Advertising + Marketing Incentive Funding

An average of $27,485 per year in co-op advertising + marketing incentive funds are allocated for Plumbing, Heating, and Air-Conditioning Contractors in the state of Minnesota that sell new, brand name merchandise, based on industry averages and the SalesFuel Co-op Index. **Nationally**, the average amount allocated for co-op advertising + marketing incentives is $22,289 per year.

Know the Customers

Target Customers

Market segments include residential, large and small commercial, industrial and institutional projects.

- Owner-occupied single-family homeowners in hot or mixed climates are the core HVAC demand base, representing about 65% of U.S. housing units, with roughly 70% of those being single-family detached homes and about 75% of households having central air systems, which typically require replacement every 12-17 years and ongoing annual maintenance.
- Small and midsize commercial businesses such as retail stores, restaurants, and offices are a high-value segment, accounting for an estimated 30%-40% of HVAC contractor revenue despite being fewer in number, with demand driven by higher-capacity systems, uptime sensitivity and recurring maintenance needs.
- Residential property managers and small multifamily landlords represent a high-frequency, multi-unit opportunity within a rental market where about 35% of U.S. households rent, enabling contractors to generate repeat installations and service work across multiple units under consolidated vendor relationships. New construction home builders and general contractors are a cyclical but volume-driven segment tied to housing activity.
- Large commercial, institutional, and light industrial facility owners and managers represent a lower-volume but high-revenue-per-account segment, where schools, hospitals, warehouses, and office buildings prioritize system reliability, energy efficiency, and service-level agreements over upfront cost.

Category Trust+Credibility

> *25.5% of U.S. Adults believe the marketing practices of home maintenance services (heating/cooling, cleaning, plumbing, waterproofing, garage door repair, etc.) are credible*

	Audience	All Respondents	Difference
65+	**25.2%**	21.6%	**+17%**
35-44	21.2%	18.2%	+16%
25-34	15.7%	16.6%	-5%
18-24	9.1%	9.6%	-5%
45-54	14.2%	15.8%	-10%
55-64	14.6%	18.5%	-21%

"More likely" or "less likely" than the average U.S. adult 18+.

Credibility - and whether a person has it or not - determines who you trust for guidance and information you use to make decisions in your everyday life. The four components of credibility for any human being are (1) being known, (2) being likable, (3) being helpful, and (4) being trustworthy. Credibility is gained (or lost) by what one says, how they say it, what they do and, finally, what others say about them. Having credibility also requires having others' best interests at heart.

Trust Drivers

74.5% of U.S. adults **do not indicate a belief that the marketing** of home maintenance services (heating/cooling, cleaning, plumbing, waterproofing, garage door repair, etc.) is credible. The following responses are from this audience of consumers.

> *What are the best ways for a company to demonstrate their credibility, trustworthiness and value through their marketing practices?*

Marketing Practice	Audience
Being transparent about what their product or service can and cannot do	66.2%
Showing real customers and authentic experiences rather than overly polished or staged advertising	63.1%
Making pricing, fees and terms easy to find without having to dig for them	56%
Responding publicly and personally to negative reviews rather than ignoring them	47%
Clearly disclosing when their content is sponsored, paid or AI-generated	44.9%
Providing and standing behind a clear, easy-to-use refund or satisfaction guarantee	44.3%
Showing the real people behind the business rather than hiding behind a brand	38.7%
Taking a clear, consistent and authentic stand on values without changing them based on trends	38.2%
Being visibly involved in and giving back to their community	37.9%
Being findable and well-represented across Google, AI search and review platforms	25.6%
Displaying third-party recognition such as industry awards, certifications, accreditations, or media coverage	19.1%
Emailing, calling and/or texting me less often	18.3%

How do you tell if a company you've never heard of before is legitimate?

Vetting Method	Audience
I search for them on Google or another search engine.	55.5%
I look for reviews on sites like Yelp, Trustpilot or Google Reviews.	50%
I ask friends, family or colleagues if they've heard of them.	45%
I ask myself if the offer seems too good to be true.	40.3%
I check their Better Business Bureau rating or complaints.	39.8%
I check for their professional-looking website with a physical address and phone number.	37.5%
I look for industry certifications, association memberships or if they're licensed in my state.	33.5%
If I have any doubts, I simply move on and look for someone else.	32.7%
I check their social media presence to see how active, responsive and authentic they are.	25.4%
I search for them on an AI assistant like ChatGPT.	16%
