[Source: 2025 EASI Demographics]

Optical Stores/Optometrists

Includes category intelligence for retailers and/or licensed professionals who perform basic eye exams and sell eyewear, glasses, frames, lenses, contact lenses, sunglasses, and accessories.

Industry Background

Primary NAICS Code: *456130*
Optical Goods Retailers

Primary SIC Code: *8042*
Offices and Clinics of Optometrists

Industry Intel

The U.S. optical industry provides vision correction products, eye health examinations and optic-related services. Key players in this space include independent optometry practices, large optical retail chains, and online eyewear retailers.

Subcategories include:

- Independent optometry practices - diagnostic exams, contact lens fittings, and direct eyewear sales
- Optical retail chains - multi-location stores offering onsite exams and a large selection of frames and lenses
- Online eyewear retailers - digital storefronts selling prescription glasses and contacts, often supported by remote vision testing
- Vision care equipment providers - supplying medical and diagnostic equipment to practitioners and clinics
- Eye care centers inside mass merchants (e.g., Costco, Walmart) - combining retail and clinical services onsite
- Hospital optometry and pharmacy units - handling complex diagnostic, surgical and age-related vision care

Optometrists have full college degrees and four years of professional training, but they do not possess medical degrees. They are trained to screen for, diagnose and treat vision conditions. Opticians have two years of post-high school training during which they learn how to apply vision products to diagnosed eye conditions. Opticians order, design, sell, and repair eyeglasses and other vision-related products.

Optical stores may be staffed by both an optometrist and an optician. The nation's 29,000 optometrist offices report about $21.5 billion in annual revenue, a figure that includes both exam fees and eyewear sales. Specifically, eyeglasses and contact lens stores, which only retail these products, total 13,600 businesses and

report revenue of $20.9 billion. Licensed optometrists in the U.S. number over 46,000, and many work in private offices, retail chains, vision centers, or multi-specialty practices.

The total U.S. optical industry reached $68.3 billion in 2025, with retailer sales growing 4% year over year and totaling $20.97 billion among the top 50 retailers. The optometry market was valued at $1.7 billion and is expected to grow nearly 10% annually, driven by technology, aging demographics, and eye disease rates. Online and retail eyewear sales are expanding rapidly due to convenience, with more patients opting for digital purchases and tele-optometry services.

Items commonly offered by Optical Stores/Optometrists

- One-hour service
- Online patient portal
- Blue-light products
- Designer brands
- Sunglasses
- Specialty frames
- Glasses repairs/adjustments
- In-house lab
- Vision therapy
- Sports eyewear
- Pediatric specialty

Related Industries

The U.S. sunglasses market, valued at $16.09 billion in 2024, is projected to reach $22.19 billion by 2032 with a 4.1% CAGR, driven by demand for eye protection, fashion, and sustainability. Growth is fueled by health awareness,

polarized lenses, and rising interest among younger, style-focused consumers.

Trends include eco-friendly materials, tech-enhanced lenses, and social media influence boosting online and luxury sales. While e-commerce is the fastest-growing channel, retail stores remain key for variety and service. Major players like EssilorLuxottica, Safilo, LVMH, and NIKE dominate both B2C and B2B markets. Looking ahead, the segment will expand through innovation, smart eyewear, and sustainable design, with continued convergence of fashion, technology, and wellness.

Opportunities+Challenges

The shift toward premium pricing and higher-value sales for lenses, frames and exams is lifting revenue per transaction, with average prices climbing 3%-6% year-over-year.

Source: "Market inSights Quarterly Report Q1 2025." thevisioncouncil.org, 2025. Web. 13 Oct. 2025.

Demand is growing for exclusive, limited-edition frames, and marketing should emphasize custom collections, virtual try-ons and seasonal drops to attract trend-focused buyers.

Source: SalesFuel, 2025.

Frame and lens volumes are projected to decline 1.5%-4.5% in mid-to-late 2026 as consumers delay replacements and prioritize quality. Marketing should emphasize durability, long-term value and refresh offers to drive purchases.

Source: "Stabilizing the Market: What Eyecare Forecasts Reveal about 2026." gatewayvision.com, 2025. Web. 13 Oct. 2025.

Readers and affordable prescription products are gaining market share, as mid-tier shoppers have grown the category's revenue by more than 8% in the last year. Promotions should spotlight affordable solutions for new vision issues and bundle discounts for first-time buyers and stress convenience.

Source: "Market inSights Quarterly Report Q1 2025." thevisioncouncil.org, 2025. Web. 13 Oct. 2025.

Retailers are facing margin declines on frames from ongoing discounting, channel expansion and premium-seeking consumer behavior.

Source: "Stabilizing the Market: What Eyecare Forecasts Reveal about 2026." gatewayvision.com, 2025. Web. 13 Oct. 2025.

Investment in smart displays, online appointment tools, virtual try-ons, and advanced diagnostics is driving consumer trust and store differentiation.

Source: "Redefining Optical Retail For 2025." visionplusmag.com, 2025. Web. 13 Oct. 2025.

The market continued to be driven by in-person shopping, though online sales remained important, especially for contact lenses and plano sunglasses, which had 39% and 32% of sales come from online channels, respectively.

Source: "U.S. Optical Industry Grows to $68.3 Billion, According to The Vision Council's New Market inSights Report." thevisioncouncil.org, 23 Jan. 2025. Web. 14 Oct. 2025.

Budget-conscious consumer behavior is driving retailers to focus on enhancing the customer experience while offering more affordable eyewear and eyecare options. Many also invest in staff training and education and upgraded infrastructure to improve retention.

Source: "VM's 2025 Top 50 U.S. Optical Retailers." visionmonday.com, 2025

There is rising demand for eye exams and vision correction, which is closely tied to the aging U.S. population and increased digital screen use. Specifically, there are increased myopia rates in children and adults.

Know the Customers

Target Customers

More than 240 million adults in the United States, or 92% of the population, regularly use some form of eyewear.

Top markets include:

- Adults 25-64: Primary buyers, generating approximately 65% of eyewear sales; motivated by vision needs, work, and lifestyle. Women lead with 55.3% of North American sales in 2024, influencing fashion, premium adoption and marketing strategies
- Children and teens: Growing segment due to rising myopia (up 66% over 20 years); demand durable, stylish, and affordable frames
- Contact lens wearers: Nearly 45 million Americans, skewing younger; favoring convenience and advanced lens technology
- Seniors: Drive sales for progressive and bifocal lenses; prefer comfort, value and tailored service; aging population expands demand for specialized vision solutions

[Sources: "Optical Store: Customer Segmentation (Oct 2025)." businessdojo.com, 2025. Web. 13 Oct. 2025; "Eyewear Statistics By Vital Components and Facts (2025)." market.biz, 2025. EYE EXAMS

In the past 12 months, eye exam rates remained steady, with 64% of adults reporting an exam within the past year. Among those with managed vision care, 73% had an exam during that period, compared to only 46% of adults without coverage. Two out of three consumers (67%) who had an eye exam in the last three months paid less than $50 out-of-pocket for their visit. Additionally, 32% of individuals who purchased prescription glasses this quarter used an FSA or HSA to help cover the cost.

Target Customers by Mile Radius

Most customers are drawn from a 20 mile radius. [Source: "Your Customers Are Driving By!" opticedge.com, 2025. Web. 13 Oct. 2025.]

Top Factors People Consider When Choosing This Type Of Account

- Clinical quality and trust: Customers prioritize certified optometrists, accurate exams, precise prescriptions, professional recommendations, and advanced diagnostic technology. Vision health and provider expertise drive both initial visits and long-term loyalty.
- Product selection and style: A wide, current assortment of frames, lenses, and contacts, from basics to designer and specialty options, is critical. Fashionable, functional and tech-enabled eyewear, along with the ability to try multiple styles, strongly influences store preference, especially among women.
- Price transparency and insurance: Clear pricing, promotions, bundled offers, and acceptance of major vision plans are increasingly important, particularly for young adults, families and value-conscious shoppers.
- Customer experience and convenience: Organized, welcoming stores with knowledgeable staff, aftercare services, flexible scheduling and accessible locations boost satisfaction, repeat visits and referrals.
- Peer recommendations and online reviews: Word-of-mouth and digital ratings significantly influence both new and returning customers, highlighting the importance of reputation management.
