Physical/Occupational Therapists

Includes category intelligence for providers of physical and occupational therapy and rehabilitation.

Industry Background

Primary NAICS Code: *621340*
Offices of Physical, Occupational Speech Therapists, and Audiologists

Primary SIC Code: *8049*
Offices and Clinics of Health Practitioners, NEC (physical, occupational, recreational and speech therapists, and audiologists)

Industry Intel

Occupational therapists (OT) assist patients in achieving physical control over activities of daily life such as dressing, bathing and eating. Often this work is necessary with elderly patients after surgery or a serious illness. These professionals typically work in hospitals although some may work for home healthcare agencies. They must have a specialized master's degree to perform this work. OT professionals who own their own businesses rely on physician referrals.

Physical therapists (PT) assist patients in regaining mobility and in learning exercises to restore range of motion and to relieve pain. These professionals often have a master's degree and often a doctoral degree. They may work in hospitals and in private practice, relying on physicians to refer patients to them.

The nation's nearly 155,910 physical therapy businesses report revenues of approximately $56.4 billion dollars. Occupational therapy businesses total almost 43,700 businesses with revenue of $30.6 billion.

These businesses primarily compete with each other. A significant portion of practice resources are devoted to developing referral relationships with physicians, hospitals and clinics. These professionals must also develop expertise in handling Medicare, Medicaid and insurance company regulations with respect to referrals and reimbursement and billing practices.

Physical and occupational therapy is considered a growth industry as a large proportion of the U.S. population is aging. An older sedentary and overweight population leads to more aches, pains and injuries. Therapists expect to see increasing demand for services.

Establishment+Employment Count

There are estimated to be 3,692 companies of this type (*Offices of other health practitioners*) in the state of Minnesota employing approximately 18,542 people.
[Source: 2025 EASI Demographics]

Items commonly offered by Physical/Occupational Therapists

- Alternative therapies
- Evening and weekend appointments
- Senior therapy
- Back pain specialists
- Integrated exercise programs
- Autism therapy
- Sports injury therapy
- Home health
- Board-certified
- Women's health
- Accepts Medicare

Executive Summary

7.7% of US adults said "Physical therapy" when asked "When it comes to health and wellness, I intend or expect to pay for these items in the next 12 months..."

Top sales months for Physical/Occupational Therapists are: November, December, October.

The Annual Advertising/Marketing Budget is approximately **1.0%** of retail sales -
62% of physician practices spend between 1% and 5% of revenue on marketing.
For smaller practices, that figure amounts to $12,000 a year, while for large practices, the marketing budget can range from $50,000 to $150,000.

This amounts to an estimated ad budget of **$7,785** per location for average size offices of other health practitioners in the state of Minnesota. To be average in this market, offices of other health practitioners need to spend **$1,550** per employee on advertising every year. In the state of Minnesota there is an estimated **$28,741,120** in ad revenue.

There is at least one co-op advertising plan available: Pride Mobility

41.4% of U.S. adults believe that physical therapy/rehabilitation centers are credible in what they say and do, and have their best interest at heart.

You can confidently lead with television advertising as a conversion driver, not just an awareness tactic. **73.2% of Physical Therapy Patients** took action after seeing a television (traditional, including cable or satellite subscription) in the past year.

Physical Therapy Patients are **128% more likely** to read a blog every day.

Discovery Questions

- Looking ahead 12 to 24 months, what changes in payer policy, staffing or patient demographics do you anticipate, and how prepared do you feel your clinic is to adapt?
- How are you currently measuring patient outcomes (strength, mobility, pain reduction, satisfaction), and how do those metrics factor into your reimbursement or payer contracts?
- How satisfied are your current referral sources with the communication, patient referrals and feedback loop you provide, and what could improve those relationships?

Know the Customers

Target Customers

Seniors, athletes with sports injuries, and consumers recovering from surgery or accidents are primary patients. Occupational therapy is also an important part of treatment for people with various illnesses and disabilities, such as Alzheimer's disease, cerebral palsy, autism, or the loss of a limb.

51% of Americans say they have had physical therapy at some point, with the percentage highest among those ages 55 and older (60%).

These professionals also serve institutions such as schools and nursing homes. They primarily work on a contract basis and case-by-case.

Occupational therapists in schools work with students who are having difficulty with tasks, and students who have a disability. Occupational therapy may be recommended for an individual student for reasons that might be affecting learning or behavior, such as:

- Motor skills
- Cognitive processing
- Visual or perceptual problems
- Mental health concerns
- Difficulties staying on task
- Disorganization
- Inappropriate sensory responses

There's opportunity to work with employers that are interested in workplace ergonomics. More businesses are consulting with occupational therapists to ensure safe and comfortable workplaces for employees.
[Sources: "Occupational Outlook Handbook, Occupational Therapists." BLS.gov, 27 Aug. 2026. Web. 16 Sep. 2026; United States. Securities and Exchange Commission. U.S. Physical Therapy, Inc.: 10-K. Edgar Online, 27 Feb. 2026. Web. 16 Sep. 2026; "How many Americans is physical therapy helping?" yougov.com, 30 Apr. 2024. Web. 16 Sep.

2026]

Target Customers by Mile Radius

Most customers are drawn from a 15 mile radius.

Typically, these businesses draw patients within a 5-15-mile radius.
[Source: "Physical Therapy SEO: Win the Patients Closest to You." targetpatientsmd.com, 28 Jul. 2026. Web. 16 Sep. 2026.]

Note that some centers may need to present a Certificate of Need (CON) program, which work to restrain health care facility costs and allow coordinated planning of new services and construction. While building location requirements vary by state, many states suggest a 10-to-15-mile radius for rehab centers.
[Sources: "Certificate of Need: State Health Laws and Programs." NCSL.org.]

Top Factors People Consider When Choosing This Type Of Account

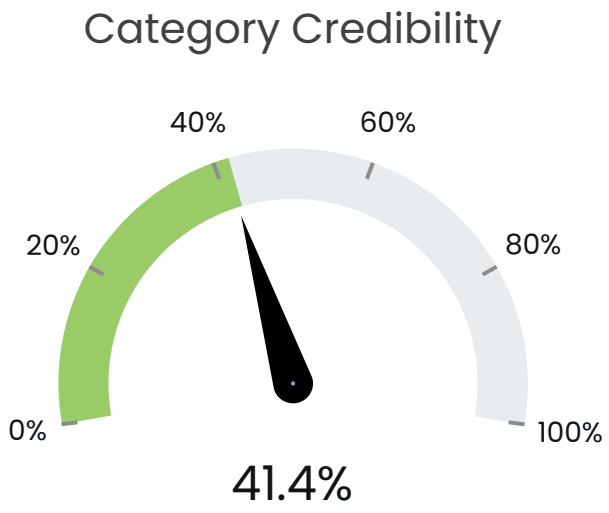

Competitive factors affecting business include:

- Quality of care
- Cost
- Treatment outcomes
- Convenience of location
- Relationships with, and ability to meet the needs of, referral and payor sources

Patients may patronize a specific physical therapist because of physician recommendations and insurance reimbursement. Adapting to new technology is also an important competitive factor.
[Source: "Occupational Outlook Handbook, Occupational Therapists." BLS.gov, 27 Aug. 2026. Web. 16 Sep. 2026; United States. Securities and Exchange Commission. U.S. Physical Therapy, Inc.: 10-K. Edgar Online, 27 Feb. 2026. Web. 16 Sep. 2026]

Category Trust+Credibility

> *41.4% of U.S. Adults believe the marketing practices of physical therapy/rehabilitation centers are credible*

	Audience	All Respondents	Difference
65+	**24.7%**	21.6%	**+14%**
55-64	20%	18.5%	+8%
45-54	17%	15.8%	+8%
35-44	17.5%	18.2%	-4%
18-24	7.8%	9.6%	-19%
25-34	13%	16.6%	-22%

"More likely" or "less likely" than the average U.S. adult 18+.

Credibility - and whether a person has it or not - determines who you trust for guidance and information you use to make decisions in your everyday life. The four components of credibility for any human being are (1) being known, (2) being likable, (3) being helpful, and (4) being trustworthy. Credibility is gained (or lost) by what one says, how they say it, what they do and, finally, what others say about them. Having credibility also requires having others' best interests at heart.

SOURCE: 2026 State of Credibility 2026 Methodology

Trust Drivers

58.6% of U.S. adults **do not indicate a belief that the marketing** of physical therapy/rehabilitation centers is credible. The following responses are from this audience of consumers.

> *What are the best ways for a company to demonstrate their credibility, trustworthiness and value through their marketing practices?*

Marketing Practice	Audience
Being transparent about what their product or service can and cannot do	60.6%
Showing real customers and authentic experiences rather than overly polished or staged advertising	59.7%
Making pricing, fees and terms easy to find without having to dig for them	48.6%
Clearly disclosing when their content is sponsored, paid or AI-generated	42.7%
Responding publicly and personally to negative reviews rather than ignoring them	39.4%
Taking a clear, consistent and authentic stand on values without changing them based on trends	35.2%
Showing the real people behind the business rather than hiding behind a brand	34.3%
Being visibly involved in and giving back to their community	33%
Being findable and well-represented across Google, AI search and review platforms	23%
Displaying third-party recognition such as industry awards, certifications, accreditations, or media coverage	17.8%
Emailing, calling and/or texting me less often	17.1%

How do you tell if a company you've never heard of before is legitimate?

Vetting Method	Audience
I search for them on Google or another search engine.	53%
I look for reviews on sites like Yelp, Trustpilot or Google Reviews.	46%
I ask friends, family or colleagues if they've heard of them.	44.4%
I ask myself if the offer seems too good to be true.	36.2%
I check their Better Business Bureau rating or complaints.	35.7%
I check for their professional-looking website with a physical address and phone number.	33.8%
I look for industry certifications, association memberships or if they're licensed in my state.	31.7%
If I have any doubts, I simply move on and look for someone else.	28.7%
I check their social media presence to see how active, responsive and authentic they are.	24.6%
I search for them on an AI assistant like ChatGPT.	15.7%

While it has been trained with every article from SalesFuel Today and Media Sales Today in the past six years, along with the works of C. Lee Smith, it can also draw information from public sources that may be unreliable. You should discuss any suggested course of action with your manager before proceeding. AdMall Sales Coach should not be used as substitute for legal advice, mental health therapy, HR guidance nor financial advice.
