Case Study

Sales heat up for cold weather apparel

CHALLENGE

Capitalize on successful B2B sales where employers purchased goods for staff working in cold indoor and outdoor environments and move into more challenging direct to consumer B2C market.

SOLUTIONS:

RTB Display | Social | Geo & Temp. Targeting | Dynamic Ads | Retargeting

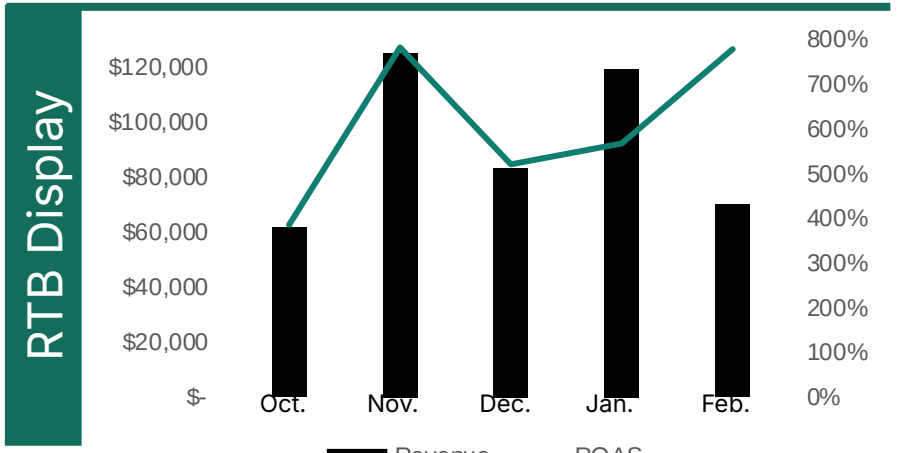

STRATEGY:

Capitalize on cold weather climates with specific temperature targeting to take advantage of varying weather conditions in any specific area of the country.

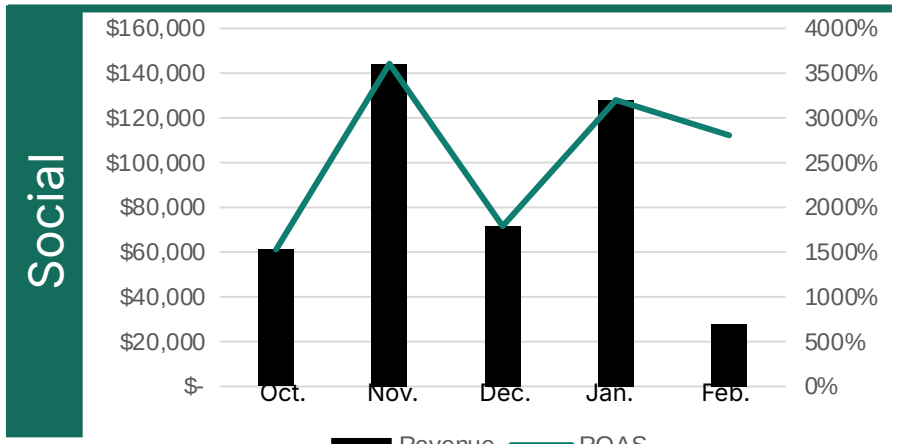

Prospecting: Served ads that would dynamically show the temperature for the area and top selling products to combat the conditions.

Retargeting: Served dynamic ads that were tailored to what the user had previously viewed and how far they made it in the purchase journey.

RESULTS:

Jan. 30% increase in budget, Feb. 57% decrease

Feb. 75% decrease in budget due to winter seasonality
