Adtaxi Education Case Study

Omnichannel success for multi-location college

Situation:

A multi-market + online college in the southeast continues to find success across multiple platforms.

History: Over nine months, the college grew from marketing one campus on two platforms at $5K/mo. to an omnichannel approach across all four campuses and their online programs at ~$60K/mo.

Solutions: Utilize a full-funnel omnichannel strategy across Programmatic/RTB Display, Facebook, Instagram, Connected TV, and Audio. Note, Social strategy focused on retargeting site visitors, therefore only ~7% of budget.

Campaign Length: Q1

Budget: ~$181,000 - Q1

KPI's: While branding is important through channels like Audio and Connected TV, Form Fills are the ultimate KPI.
