Challenges	Solutions
Competitor opened a dealership 5 miles away	Geo-targeting for DOOH campaign
Increase brand awareness for EV shoppers	Targeting to EV shoppers coordinated with national brand Super Bowl Ads
Measuring campaign results	In-store + SEM tracking

When a competitor opened a new location 5 miles away, Kia of Irvine needed to increase brand awareness and capture the attention of shoppers interested in purchasing electric vehicles and plug-in hybrids in their local market and surrounding areas.

Adding Digital Out of Home and maximizing the advantage offered by strategic targeting resulted in increased search traffic and in-store visits.
