LAW OFFICES SUCCESS STORY:

Building the case: Analyzing data to uncover evidence that leads to marketing success.

Legal | Omnichannel

RESULTS: WITHIN 90 - DAYS:

150%
Increase in website traffic

3x
Growth in qualified leads

300%
Increase in new business cases

CAMPAIGN GOAL & CHALLENGES

Client needed to extract more out of their online advertising as their past traditional ad programs were becoming less and less effective.

While recognizing the need for more of an online presence and increasing case interest, their former digital agency was not delivering on performance or brand awareness. Cases were down 80% and their cost per lead was continuing to skyrocket.

OVERALL SOLUTION:

Develop a strategic omnichannel approach to garner and nurture interest, as well as instill confidence in prospects through their decision process

HISTORICAL HIGHLIGHTS:

23%
Decrease in cost per click

$.045
Cost per view on YouTube

55%
Reduction in cost per retained case

After 2 years, and notwithstanding strong budget increases, the client continues to break records in retained cases.

CAMPAIGN STRATEGIES

Six strategies that built the case

1. Analyze CRM for Profitability: Analyzed CRM to identify sources of leads and acquire an understanding of the most profitable conversions/business through the data and then align budget accordingly.

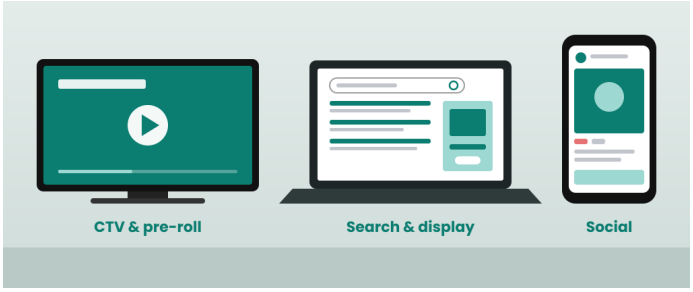

2. Implement Offline Attribution: Integrated offline attribution on Social platforms into the client's CRM in order to gain a clearer, more accurate, understanding of actual influences in order to make better campaign adjustments.

3. Overhaul Search Keywords: Dug into SEM/Keywords to uncover the greatest converting and most profitable keywords. Developed broader, "long tail" keywords and implemented negative keywords to eliminate non-converting, irrelevant search terms.

4. Incorporate Multi-language ads: Created Spanish and English Connected TV and Pre-roll ads to reinforce clients branding.

5. Develop Video and Display Ads for Prospecting and Conversions: Utilized Display and YouTube for driving a mix of prospecting and conversions through robust look-a-like modeling and retargeting of site visitors who did not convert.

6. Redefine Conversion Tactics: Low funnel conversion tactics included pushing people to complete a lead form which proved successful as trends with people initiating contact via phone were declining.

KEY INSIGHTS

Dig deep on analyzing your CRM, there's likely a trail of insights to use to make good business decisions.

For this client, TV penetration has continued to decrease, as marketers, we must fill the gap. This is where leveraging video across platforms, especially Connected TV is critical.
